Dear Sir/Madam

## **QUARTERLY PRODUCTION RECORD ACHIEVED AT SURDA MINE**

Diversified minerals developer and operator India Resources Limited (ASX: IRL) is pleased to advise that a new quarterly copper production record has been achieved at the Surda copper mine in India.

Copper production at Surda for the June 2011 quarter was 967 tonnes of copper metal-in-concentrate. The previous quarterly copper production record for the mine was 884 tonnes of metal-in-concentrate for the March 2011 quarter.

This increase in copper production is in line with our previous forecast target average of 900 tonnes metal-in-concentrate per quarter.

Yours faithfully

**Arvind Misra**  
Managing Director
